Insurance arrangements for Universal Removals Customers
Important– Please Read Carefully

We strongly advise you to take out insurance to cover your goods for their full value whilst in transit please note that there is No Standard Insurance cover included in the cost of The Removals or Moving Service whichever moving company you choose !

Insurance: Our liability to you is restricted as detailed within our terms and conditions. For this reason we are able to extend our insurance cover for your benefit rates are 1.5% for European moves and 3.5% for worldwide moves of your declared value. If you wish to take out cover please return the insurance application form before the collection date

Our Insurance Partner is Basil Fry & Company www.basilfry.co.uk they are the only insurance broker in the UK dedicated solely to the provision of insurance for removal and storage contractors. Founded in 1970. Our trading conditions like many Removal Companies here in the UK limit our liability to £40 per box/item as detailed within for loss only, this does not cover any damage that may occur during Transit. You should be aware that items that you pack yourself can only be covered for total loss of the item and not damage, this is standard practice of most insurers. Cover for damage can only be effected on items that are professionally packed. If you require this type of cover and have not requested us to pack your items please contact us as soon as possible to discuss the options.

Items that are packed by us can be covered for damage (all risks) provided you take out Insurance policy cover with the Insurance company we can arrange this for you .

If you are in any doubt regarding the level of cover you require please contact us immediately to discuss the various options available to you.
